

FABRIC TYPES

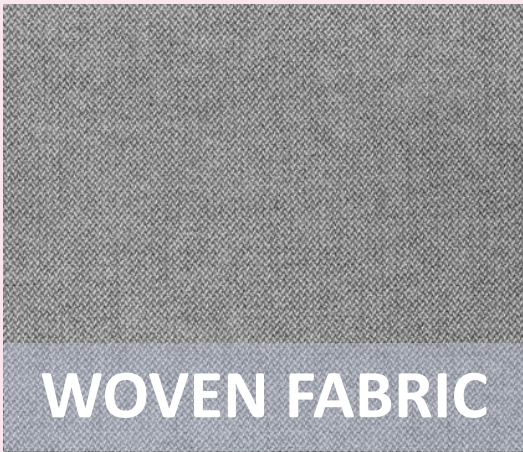

FABRICS

Is cloth made of fibers. Fibers are hair-like strands that are wound to make yarn or thread used to make fabric.

Fabric is the cloth or material used in making our clothes curtains, tablecloths, sheets and many other items.

TYPES OF FABRICS

Does not stretch except on the bias. Woven fabric is made up of fibers which run straight at nitty degree angles to each other.

Knit fabric is an elastic material, and has loop of fiber that low the fabric to stretch.
