TLE

Quarter 4 Module 2

SEW AND ASSEMBLE

THE LADY'S

TROUSERS

What I Need to Know

This module was designed and written with you in mind. It is here to help you master the nature of Dressmaking. The scope of this module permits it to be used in many different learning situations. The language used recognizes the diverse vocabulary level of students.

The lessons are arranged to follow the standard sequence of the course. But the order in which you read them can be changed to correspond with the textbook you are now using.

The module covers one lesson:

Lesson 1 Produce Ladies Trousers

LEARNING COMPETENCY:

MELC LO 3. Assemble garment parts for ladies trouser

3.6. Sew and Assemble the Ladies' Trousers

After going through this module, you are expected to:

1. Sew and assemble the lady's trousers;
2. Attach and sew side slide pocket and zipper fly placket; and
3. Attach and sew waistband with interfacing.

What I Know

IDENTIFICATION

Direction: Choose your answer from the list below and write it on your notebook.

trousers	fastener	crotch	pocket	basting
Placket	plain seam	dart	notches	seam allowance

1. The finished opening of a garment constructed for convenience in putting in and ridding off the garment.
2. A measurement from the waistline to the top level of the ruler or chair when seated.
3. The narrow width between the seam line and the raw edge of the fabric.
4. The small cuts (slits or wedges) made in the edges of the garment pieces to aid in correct assembly.
5. A stitched fold in the fabric that tapers from a seam to point to the part of the body. Used to create shape and control fullness.
6. A small bag sewn into or on clothing so as to form part of it, used for carrying small articles.
7. It is called pants or slacks, an outer garment covering the lower half of the body from the waist to the ankles.
8. It is the stitching made to join two fabric pieces together, leaving some seam allowance, usually 1/2 inch or 5/8 inch.
9. It is the essential part of a fastening system used to hold together at least two pieces of material.
10. To sew with long loose stitches in order to hold something in place temporarily.

Lesson

2

PRODUCE LADIES' TROUSERS SEW AND ASSEMBLE THE LADY'S TROUSERS

Notes to the Teacher

This contains helpful tips or strategies that will help you in guiding the learners. The following are information that would lead to the activities and assessment. Some activities may need your own discretion upon checking, or you may use rubric if provided. Please review the activities and answer keys and amend if necessary.

What's In

Why is reinforcement or piece of fabric sewn at the opening of the side pocket?

What are the steps in assembling and sewing a lady's the trousers?

What's New

Let us find out how much you already know about the lesson by answering this item.

Direction: Guess the word based on the given definition in each number. Write the missing letters of the word inside the letter blocks below the definition.

1. A device consisting of two flexible strips of metal or plastic with interlocking projections closed or opened by pulling a slide along them, used to fasten garments.

Z		P	P		
----------	--	----------	----------	--	--

2. It is a straight stitch sewn through one layer of fabric. It's most often used around a curve to prevent distortion.

S	T	A	Y						H	I	N	G
----------	----------	----------	----------	--	--	--	--	--	----------	----------	----------	----------

3. The seam is basically an overlapping seam that's sewn flat. It's used frequently in menswear because it's extremely durable and sturdy.

F	L			--	F			L	E	D	--	S		A	M
----------	----------	--	--	----	----------	--	--	----------	----------	----------	----	----------	--	----------	----------

4. An imaginary line around a person's body at the waist.

W		I	S		--	L			E
----------	--	----------	----------	--	----	----------	--	--	----------

5. A piece of clothing covering the lower part of the body from the waist to the foot.

T	R					R	S

What is It

PROCEDURE IN ASSEMBLING THE TROUSERS

[\(286\) Tutorial for Mimi G Suit Pants, Simplicity Sewing Pattern 8749 - YouTube](#)

Patterns needed:

- 2 interfacing for the pocket opening
- 1 fly interfacing
- 1 underlap
- 2 pockets facing
- 2 front pocket yokes
- 1 lap
- 1 waistband interfacing
- Waistband
- 2 back pants
- 2 front pants
- Zipper and hook and eye

1. Once everything has been cut including the interfacing, we can now start Overedging the raw edges of the front and back legs.
2. Sew the front and back dart before attaching the continental pockets and press the darts towards the center crotch.

3. Attach the interfacings of the front pocket facings.

4. Align the pocket facing pieces with the notches to the front pocket openings and secure them with pins.

5. Sew the stitching line about five eighths of an inch seam allowance.

6. Under stitch the side pocket openings toward the pocket facings and give a nice good press. Baste the waist parts and side seams to hold them in place.

6. Place the front pocket yokes over the pocket facings in line with the notches and pin together or baste together.

7. Stitch the pocket bags together using five eighths of an inch seam allowance and make sure the pants are completely out of the way when machine stitching. Then, baste the pockets in place to the front waist of the pants and sides seams respectively to keep the pocket in perfect position.

Note: Do the same process on the other front side of the pants.

8. Serge/Finish both center front crotch of the pants separately and also serge/Finish around the unnotched part fly.

9. With right side facing place, pin together the front crotch from the zipper notch allowance to the notches intended for the in-seam allowance of the pants and then stitch 5 eighths of an inch in the wrong side at of the fabric, leaving an opening for the zipper. Clip the seam allowance adjacent to the zipper placket and be careful not to cut the stitching line. This must be slashed so that some point can be laid out flat.

10. Working on the left of the pants, pin the fly to match and align it with the front zipper opening of the pants then stitch it with the use of a sewing machine, be sure to reinforce by backstitching the beginning and end stitch using five eighth of an inch allowance. Trim the seam allowance to a quarter-inch and under stitch the fly, making sure that the seam allowance is pressed towards the fly.

11. Use a longer zipper to work completely out of the zipper pool. Attach the zipper face down and extend a quarter inch then pin to the fly. Stitch the other side of the zipper to the fly on the right side using a sewing machine.

12. Working with the right side of the pants, you must open the zipper and pin it in place right onto the zipper opening placing the folded edge on the zipper tape close to the teeth. Machine stitch and press. Make sure that the zipper is placed nice and flat with the left zipper placket overlapping the right.

13. Working on the under lap, sew the bottom of the underlap edge fold it right side facing each other and stitch along to close using 3/8 of an inch seam allowance then turn it right side out and serge or finish off the long edge and press.

14. Place the underlap behind the right side of the zipper then pin through all the layer together. Stitch the existing stitching line, make sure that the underlap is properly in place.

15. Pin the underlap out of the way in order to finish the top stitching of the front zipper and follow the stitching guide in order to

make the fly top stitching perfect. Also, pin the front fly to the right fly in place in order not to pull the alignment while sewing the top stitch.

16. Lay the lap nice flat and then, stitch the under lap and fly to tack them together and trim the excess zipper.

17. Attach the front and back legs with the right sides facing each other together and pin the inseams, make sure the notches match together before machine stitching at about five eighths of an inch seam allowance.

Note; Do the same process with the other side of the inseam leg.

18. Pin the side seam and match the notches together until the hemline. Then, machine stitch using five eighths of an inch seam allowance. Do the same process on the other side seam of the pants.

19. Working on the bottom hem, fold it in and press and then blind stitch or machine stitch the edge.

20. Turn the pants to the wrong side and completely close the crotch by matching the notches of the center back inseam. Pin and machine stitch using five eighths of an inch seam allowance and then try your pants.

21. Work on the waistband so that the notched edge will be pressed up half inch while the other end to the waist of the pants. Pin and sew around using five eighths of an inch seam allowance.

22. Once the waistband is attached, go ahead and press the seam up towards the waistband. Close off the ends passing slightly the stitching line. Trim off the excess seam allowance and then turn it to the right side and do the same with the other end.

23. Fold the waistband and pressed and turn out. Pin on the right side catching the underneath so to stitch within the ditch.

24. Complete the process by stitching on the ditch around the waist and backstitch to secure the ends.

25. Finally press the waistband and then match waistband to attached the hook and eye fastener.

What's More

PERFORMANCE TASK 1

Resources Needed:

Ruler
Tape measure
Scissors/shears
Iron and ironing board
Sewing machine

Supplies

Bond paper
1 8" zipper
1 spool of Thread
2 pcs. scrap cloth 20 cm x 10 cm
1 pc. 8cm x 18 cm
1 pc. 5 cm x 18 cm

Direction: Prepare and cut a scrap of cloth available using the given measurement:

1. Fly facing - 18 cm x 5 cm
2. Under lap - 8 cm top width and 5 cm lower width with 18 cm length
3. Left and right pants/Cloth - 20 cm by 10 cm 2 pcs (set aside for the next task)

SCORING RUBRICS FOR CUTTING THE FLY AND UNDER LAP

(5 points)	(10 points)
The measurements not perfectly followed.	Follows all the measurements given

TOTAL SCORE _____

What I Have Learned

Direction: Make a journal about your experiences in this module. Write at least a two-paragraph essay on the lesson that have been taken up.

I have learned that

I have realized that

I will apply

What I Can Do

PERFORMANCE TASK 2

Direction:

Sew the fly front zipper placket following the correct procedure with illustration. Read and follow the given steps below or You may watch and learn the procedure from the Youtube video link below.

<https://inhousepatterns.com/blogs/news/15786293-the-front-fly-tutorial>

Resources Needed:

Ruler
Tape measure
Scissors/shears
Iron and ironing board
Sewing machine

Supplies

Bond paper
1 8" zipper
1 spool of Thread
2 pcs. scrap cloth 20 cm x 10 cm
1 pc. 8cm x 18 cm
1 pc. 5 cm x 18 cm

WHAT YOU WILL NEED

The Front

Fly Facing

Fly interfacing

Fly Guard or under lap

Transfer the Pattern Markings and Fuse Interfacing

Transfer the notches that indicate center front and the zipper offset position. Mark the small dot position. Fuse the interfacing to their appropriate pieces.

PREPARE THE PARTS

To prepare the Fly Guard, fold it with right sides together and stitch the lower curved edge using 1/4" (0.6 cm) seam allowance. Trim to 1/8" (0.3 cm) and turn right sides out. Press. Serge finish the vertical raw edge.

To prepare the Fly Facing, serge finish the curved edge.

Prepare the Front pieces by serge finishing the front and back rises.

Set the zipper to the Fly Guard or under lap. The zipper tape should be flush with the top edge and the serged edge of the zipper guard.

ASSEMBLE THE FLY

Now you are ready to begin assembling the front fly. Begin by pressing the Left Front zipper extension toward the wrong side by $\frac{3}{8}$ " (1 cm). Then set the folded edge of the next to the zipper teeth and edge stitch the Left Front section to the Zipper Guard.

Now prepare the Right Front by attaching the Fly Facing using a $\frac{3}{8}$ " (1 cm) seam allowance. Press the seam allowance toward the Fly Facing and understitch.

Press the Fly Facing toward the wrong side along the center front seam line.

If you are following along with the assembly instructions for the Claire shorts or Ellen Pants, proceed as outlined in the pattern instructions by preparing the Back sections then joining the side seams and inseams of the Front and Back together. Otherwise, you may continue as below and join Front to Back at a later stage.

With correct sides together, place the Left Front on top of the Right Front. Align the center front notches and the small dots.

Stitch the rise seam together using a 3/8" (1 cm) seam allowance. Be sure to backstitch at the small dot to secure the fly opening.

Now it is time to stitch the other side of the zipper tape to the Fly Facing. Begin by laying the Front sections down with the Fly Guard facing up and the Fly Facing extended. Check to be sure the center front notches are aligned. Stitch the zipper to the Fly Facing.

TOPSTITCHING THE FLY

Organize the Front sections so they are lying flat out in front of you. Stitch the Fly Facing to the Right Front using 1/4" seam allowance. I use the edge of my presser foot and guide it along the edge of the Fly Facing, this way I get a great looking topstitch every time. Continue stitching until you can go no further. Be sure to keep the Fly Guard free.

Turn your work so that you see the face of the garment and the Fly Guard in position. Finish the topstitching at the bottom of the fly opening through all layers. Then tack the Fly Guard to the Front through all layers to prevent it from flipping back and forth.

YOUR FRONT FLY IS FINISHED!

SCORING RUBRICS FOR MAKING A FRONT FLY ZIPPER FOR LADIES TROUSERS

Indicators	Not yet (4 points)	Good (6 points)	Very good (8 points)	Excellent (10 points)
zipper	zipper is not secure, crooked and or placed incorrectly. Stitching is not neat and even.	Zipper is a little crooked or not completely secure.	Zipper is not completely secure or crooked.	Zipper stitching is neat and even with no mistake
Seams and seam finishes	Seams have many puckers, are stretched, too wide, or right sides are not together.	Seams are too wide, have no more than 2 puckers, and are not stretched. Three or more	Seams are a little too wide. Seams may have 1 pucker but are not stretched. Seams are otherwise	Seams are the correct width, are not puckered or stretched and right sides are sewn together

		seams do not have right sides together. Seams are not finished.	sewn straight. Some seams are finished.	throughout the project. All seams are finished
Neatness cutting and sewing	Fabric cutting or sewing was careless. Curves are not rounded. notches cut- off, right sides are not together.	Some attempt was made to cut fabric with a pattern. Notches are cut out properly. Some attempt was made to stitch straight and even. right sides are together	Good attempt was made to cut with the pattern, to stitch straight and even. Notches and symbols were marked, seam allowance is correct. right sides are together	Excellent job! Right sides are together. Cutting/stitching is straight and even. Markings are traced. Seam allowance is correct.
Time Management	The student did not finish project in the time allotted.	Student needed excessive time to finish project.	Student needed extra time to finish project.	Project was turned in on time or early.

Assessment

TRUE OR FALSE: Read and answer the following statements. Write “True” if the statement states a fact and “False” if it doesn’t. Write your answer in your quiz notebook.

- _____ 1. The waistband final stitch is stitch on the ditch.
- _____ 2. The other term for fly guard is under lap.
- _____ 3. The crotch is high enough to prevent sagging of the seat, but low enough for comfort.
- _____ 4. Pin the side seam and match the notches together until the hemline. Then, machine stitch using five eighths of an inch seam allowance.
- _____ 5. Lay the lap nice flat and then, stitch the under lap and fly to tack them together and trim the excess zipper.
- _____ 6. The front creases, or lengthwise grainlines, and side seams must hang perpendicular to the floor.
- _____ 7. Zipper is the fastener used in most trousers.
- _____ 8. The structural line like the darts and pockets and hemlines may not be properly made.
- _____ 9. The trousers are cut in the crosswise grain.
- _____ 10. Sew the front and back dart before attaching the pockets.

Additional Activities

Direction: Arrange the 5 statements below following the proper procedure of assembling a trouser.

- _____ 1. Sew the stitching line about five eighths of an inch seam allowance.
- _____ 2. Attach the interfacings of the front pocket facings.
- _____ 3. Start Over edging the raw edges of the front and back legs.
- _____ 4. Sew the front and back dart before attaching the continental pockets and press the darts towards the center crotch.
- _____ 5. Align the pocket facing pieces with the notches to the front pocket openings and secure them with pins.
