

# **METHOD BEFORE CUTTING THE CLOTH**

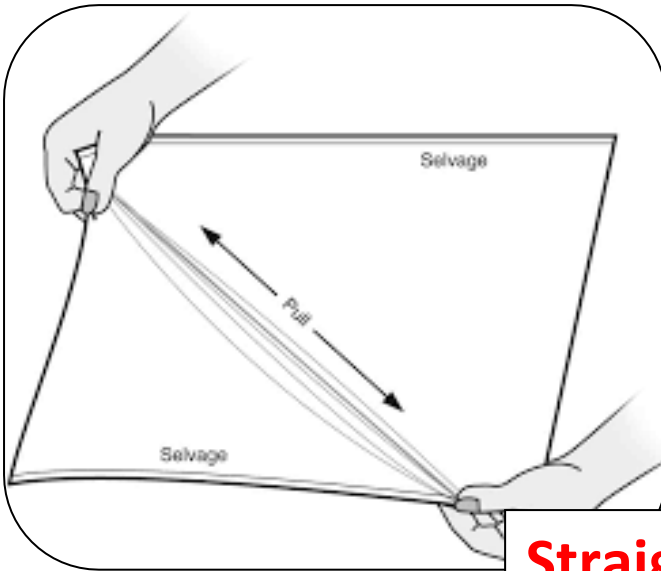

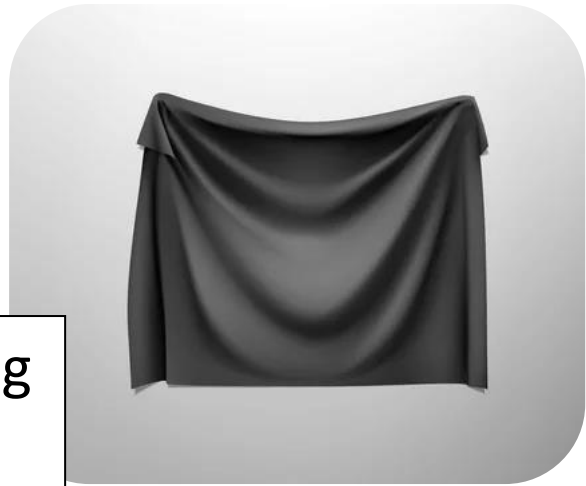

## PRE-SHRINKING METHOD BEFORE CUTTING THE CLOTH:

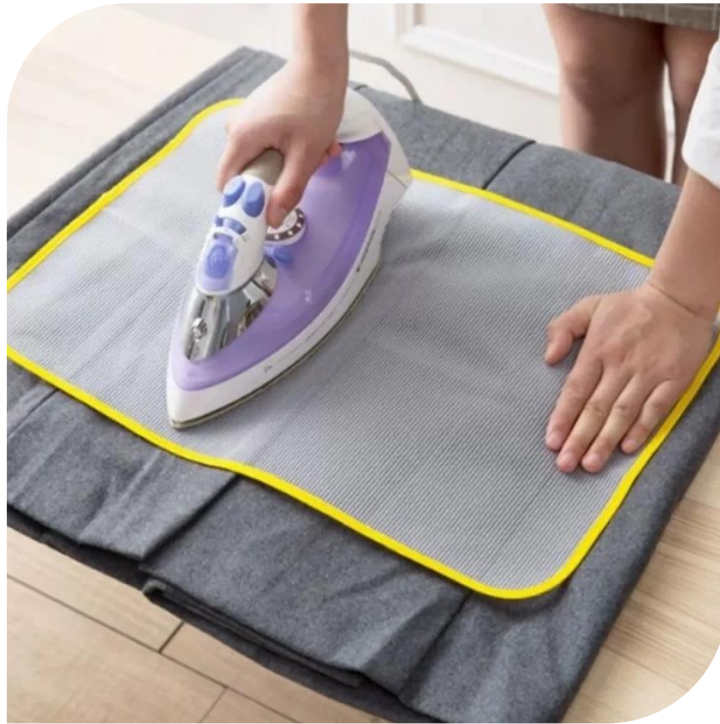

**Soaking** - -Make sure the cloth is folded correctly, then immerse or submerge it in a basin of liquid.

**Drying:** were hanging without being squeezed to dry or clenching

**Straightening:** the process of making materials aligned the grainlines before to cutting.

**Pressing:** - when the sections that winkled led to by hanging them incorrectly are compressed
