Self-Learning Module 3

Types of Fabric for Ladies Trousers

Introductory Message

For the Facilitator:

Welcome to the **Dressmaking/Tailoring Grade 10** Self-Learning Module on **Types of Fabric for Ladies Trousers!**

This Self-Learning Module was collaboratively designed, developed and reviewed by educators from the Schools Division Office of Pasig City headed by its Officer-in-Charge Schools Division Superintendent, Ma. Evalou Concepcion A. Agustin, in partnership with the City Government of Pasig through its mayor, Honorable Victor Ma. Regis N. Sotto. The writers utilized the standards set by the K to 12 Curriculum using the Most Essential Learning Competencies (MELC) in developing this instructional resource.

This learning material hopes to engage the learners in guided and independent learning activities at their own pace and time. Further, this also aims to help learners acquire the needed 21st century skills especially the 5 Cs, namely: Communication, Collaboration, Creativity, Critical Thinking, and Character while taking into consideration their needs and circumstances.

In addition to the material in the main text, you will also see this box in the body of the module:

Notes to the Teacher

This contains helpful tips or strategies that will help you in guiding the learners.

As a facilitator you are expected to orient the learners on how to use this module. You also need to keep track of the learners' progress while allowing them to manage their own learning. Moreover, you are expected to encourage and assist the learners as they do the tasks included in the module.

For the Learner:

Welcome to the Dressmaking/Tailoring Self-Learning Module on
Types of Fabric for Ladies Trousers !

This module was designed to provide you with fun and meaningful opportunities for guided and independent learning at your own pace and time. You will be enabled to process the contents of the learning material while being an active learner.

This module has the following parts and corresponding icons:

Expectations - This points to the set of knowledge and skills that you will learn after completing the module.

Pretest - This measures your prior knowledge about the lesson at hand.

Recap - This part of the module provides a review of concepts and skills that you already know about a previous lesson.

Lesson - This section discusses the topic in the module.

Activities - This is a set of activities that you need to perform.

Wrap-Up - This section summarizes the concepts and application of the lesson.

Valuing - This part integrates a desirable moral value in the lesson.

Posttest - This measures how much you have learned from the entire module.

EXPECTATIONS

At the end of the learning period, the students should be able to:

- A. identify the different types of fabric suitable for trousers;
- B. describe the characteristics of each type of fabric.
- C. find pleasure in doing the assigned tasks.

PRETEST

Directions: Identify the following statement. Write your answer on the space provided before each number given.

- _____ 1. It is a heavy-weight fabric with very little drape or stretch.
- _____ 2. A type of fabric that has strips on one side alternating between flat and slightly fluffy, which gives a ribbed effect.
- _____ 3. A medium-weight fabric with little elasticity.
- _____ 4. Commonly used in jackets and athletic short.
- _____ 5. It has an elegant appearance for women but for women with lots of activities, this is not appropriate because it snags easily.

RECAP

Question & Answer

Directions: Answer the following questions briefly.

- 1. What are the different style of ladies trousers?
- 2. Why do we need to consider the shape of the body when choosing the style of ladies trousers?

LESSON

Lesson 3 – Types of Fabrics for Ladies Trousers

Women buy a pair of trousers to add to their wardrobe and wear in the workplace. They choose the best one that suits them and best for their body types. They find the styles of trousers that look most flattering to them aside from this they give comfort and ease of movement in their workplace. There are various styles, designs and colors to match every woman's taste when it comes to trousers. But then, to come up with well-fitted and well-constructed trouser fabrics must be given importance in constructing or buying a pair of trousers to give more flattering and more catching effect to the wearer.

In choosing the best fabric suited for ladies trousers, choose fabric which is firmly woven to hold its shape and would complement more to your body shape. Texture and design should be properly examined to avoid scratchy feeling when it is used. There are also fabric types which require lining to prevent undergarments and seam allowances seen through. Choose medium-weight blends fabric for trousers.

Types of Fabrics Suited for Ladies Trousers

Gabardine

Gabardine is a light wool (or cotton once in a while) twill weave that's best for Spring and Fall. It is usually woven in 10-12 ounce weights that are warm in the summer and not warm enough in winter.

Polyester

Polyester has the same characteristics as the cotton but may not easily get dirty as cotton.

<p style="text-align: center;">Cotton</p>  <p>Cotton has an elegant appearance for women but for women with lots of activities, this is not appropriate because it snags easily and is hard to clean and care for when it gets dirty.</p>	<p style="text-align: center;">Denim</p>  <p>Denim is a heavy-weight fabric with very little drape or stretch.</p>
<p style="text-align: center;">Corduroy</p>  <p>Corduroy is a type of fabric that has strips on one side alternating between flat and slightly fluffy, which gives a ribbed effect. Corduroy is quite thick and is often used to make trousers and jackets.</p>	<p style="text-align: center;">Velveteen</p>  <p>Velveteen is a type of imitation velvet. It is normally made of cotton or a combination of cotton and silk. It has a pile that is short (never more than 3mm deep), and is closely set. It has a firm hand and a slightly sloping pile. Unlike true velvet, this type has greater body, does not drape as easily.</p>
<p style="text-align: center;">Satin</p>	<p style="text-align: center;">Flannel</p>

Satin is also commonly used in apparel: satin baseball jackets, athletic shorts, women's lingerie, nightgowns, blouses, and evening gowns, but also in some men's boxer shorts, briefs, shirts and neckties. It is also used in the production of pointed shoes for use in ballet. Other uses include interior furnishing fabrics, upholstery, and bed sheets.

Flannel is a soft, lightweight fabric. It works well for colder-temperature shirts, pants and jackets.

Linen

Linen is a medium-weight fabric with little elasticity (hence it wrinkles). But it conducts heat and is a popular choice for warm-weather.

But remember that linen wrinkles a lot. It also doesn't drape on the body like some of the other fabrics do. It is a somewhat stiff crispy fabric. Ensure that the linen you are buying is not too crisp that it scratches the skin.

Good quality linen will be soft. Choose the best quality linen and you cannot go wrong

Rayon Challis

Rayon challis is a favorite for dressmaking because it is super light and very flowy; the wonderful way it drapes on the body is the reason why many of the clothes you see on stores are made in this fabric.

It is not the easiest fabric to sew with, but the way it looks on you will compensate for the pain. It is a great fabric to make Dresses, blouses, soft jackets, skirts, draped garments, soft pants, shorts, pajamas.

ACTIVITIES

Activity No. 1: Collect Me

Directions: Collect and make an album of the different types of fabric. Paste and label them in your notebook.

Five empty rounded rectangular boxes arranged in two rows: three in the top row and two in the bottom row.

Activity No.2 Describe Me

Directions: Give a short description of the following types of fabric.

<div>DENIM</div>	<div>COTTON</div>
<div>SATIN</div>	

Three large rectangular boxes for descriptions, each with a label at the top: DENIM, COTTON, and SATIN.

WRAP-UP

Directions: Answer the following questions briefly.

1. If you are the dressmaker, which types of fabric will you recommend to your customer? Why?
2. What are the reasons to consider when choosing the different types of fabric?

VALUING

Sentence Completion

The knowledge that I've learned today is/are_____.

I have realized..._____.

Today, I am confused in . . _____

POST TEST

Directions: Read the statement carefully. Choose the letter of the correct answer.

1. A type of fabric that has strips on one side alternating between flat and slightly fluffy, which gives a ribbed effect.
A. Flannel B. Corduroy C. Satin D. Cotton
2. A medium-weight fabric with little elasticity (hence it wrinkles). But it conducts heat and is a popular choice for warm-weather.
A. Rayon challis B. Denim C. Linen D. Velveteen
3. It is a super light and very flowy; the wonderful way it drapes on the body is the reason why many of the clothes you see on stores are made in this fabric.
A. Rayon challis B. Denim C. Linen D. Velveteen
4. It is a combination of cotton and silk. It has a firm hand and a slightly sloping pile.
A. Rayon challis B. Denim C. Linen D. Velveteen
5. A type of fabric that has an elegant appearance for women it snags easily and is hard to clean and care for when it gets dirty.
A. Cotton B. Flannel C. Corduroy D. Satin

KEY TO CORRECTION

Post Test	1. B	1. Denim
	2. C	2. Corduroy
	3. A	3. Linen
	4. D	4. Satin
	5. A	5. Cotton
